Full job description

Your new company

This global CRO are one of the major players in Australian and global clinical trial management. With a large team in ANZ, excellent training and development opportunities and a clear career path for its employees, they have a great reputation. Hays Life Sciences are currently supporting this company with a number of job opportunities for Senior/Clinical Research Associates to work in major capital city locations in Australia.

Your new role

As a Clinical Research Associate you will be responsible for monitoring clinical trial progress from the initiation of clinical trial sites through to the close out of clinical trials. You will monitor trials in line with company SOP's, ICH GCP and FDA guidelines. You will work alongside internal and external stakeholders to complete study timelines maintaining a high level of quality and data integrity, patient safety will be at the heart of what you do.

What you'll need to succeed

12 months experience in an independently monitoring clinical research associate role in Australia as well as a relevant degree in a scientific discipline. You will also need excellent interpersonal skills and the ability to problem solve and work under pressure.

What you'll get in return

This company boast some of the best internal processes in the industry, meaning you can spend more time building relationships with your site and less time on source data verification. Alongside this the company encourages work life balance with flexible hours and wellness benefits. They offer clear career paths and encourage proactive and dedicated clinical research professionals to develop into project or team management roles internally.

What you need to do now

If you're interested in this role, forward an up-to-date copy of your CV to

Krisztina Auth, Krisztina.Auth@hays.com.au, or call 03 9095 2231 now. If this job isn't quite right for you but you are working in clinical research and are looking for a new position, please contact me for a confidential discussion on your career.

If you know somebody who would be interested in this role, we offer a \$200 reward scheme for referrals upon successful placement.
